Perfect Health Is Yours If the Blood Is Kept Pure

Almost Every Human Ailment Is Due to Blood Impurities.

You can not overestimate the importance of keeping the blood free of impurities. When you realize that the heart is constantly pumping this vital fluid to all parts of the body, you can easily see that any impurity in the blood will cause serious consequences.

Any slight disorder or impurity that creeps into the blood is a source of danger, for every vital organ of the body depends upon the blood to properly perform its function.

Many painful and dangerous diseases are the direct result of a bad

condition of the blood. Among the most serious are rheumatism, with its torturing pains, gout, often a forerunner of dread consumption; Eczema, Tetter, Crustipela and other disfiguring skin diseases; Malaria, which makes the strongest men helpless; and many other diseases are the direct result of impure blood.

You can easily rid your body of these diseases and rid the system of them, by the use of S. S. B. This wonderful living remedy that has been in constant use for more than 50 years. S. S. cleanses the blood thoroughly and rids every vestige of impurity. It is sold by druggists everywhere.

For valuable literature and medical advice absolutely free, write today to the Medical Dept. Swift Specialties company, 228 Swift Laboratory, Atlanta, Ga.—Adv.

Such disease as rheumatism, fits of from \$25 to \$500 and imprisonment by the county jail for a sum ranging from \$10 to one year.
